Good Afternoon,

Megan Adamczyk is at the esat lab and we have all the lab data published in our Scribe analytical including the esat samples. The data is available to view in Sadie on the operations viewer.

Jamie and Eric are in Durango and will cover any data/mapping needs you have.

No. Deploy it now and connect it to all the Scribe data we have. We will smooth out any issues over the next day or two.

Note all 3 regions are moving to using the same OPS viewer so things may be fluid for a bit.

In the meantime, work with Ian to make sure Randy is able to use our OPS viewer ASAP.

Please keep Janine in the loop.

Martin the new operations viewer is about ready to go in the new template. The JavaScript code is a little bit different. It is also linked to SADIE with the analytical results. Do you need to review?

Subject: Updated Sample Tracker

All,

The Region 8 sample tracker sheet has been updated with COCs received today.

Thanks,

Moira Pryhoda
